

## Health Economist

**Location:** Primrose Hill, London, UK or Newcastle-upon-Tyne, UK

**Type:** Permanent, office based

**Application deadline:** 14 January 2022

### About PHMR

Established in 2007, we are a highly successful and energetic consultancy – a diverse group of well-recognised professional scientists, health economists, and industry specialists with a proven track record in providing global market access solutions to some of the biggest healthcare industries so that patients get access to medicines. Our science is internationally renowned, and we are proud of our work.

- We apply robust scientific approaches and methodologies. Quality science comes first
- We combine the expertise of our team with a worldwide professional network
- We continuously learn and improve
- 90% of our projects are repeat or referral from our existing customers
- Most of our team are educated to PhD level
- We embrace diversity in all its forms

Our trusted expertise and approach to science resulted in an acquisition by UDG Healthcare in early 2021 placing PHMR within Putnam and the wider Ashfield Advisory group. This new development presents even a wider range of future opportunities for those who are excited about challenging problems and bringing innovative practical solutions to some of the biggest healthcare industries.

With offices in London (UK), Newcastle upon Tyne (UK) and Westport (The Rep. Of Ireland) our team currently comprises of over 50 scientists-consultants and expects to reach approximately 60 by the end of 2022.

Our culture is open, team based, and inclusive. We are creative, innovative, and forward thinking, and we truly operate as a team of people who enjoy spending time together. Our leadership team is always approachable and offers coaching and training opportunities to the less experienced staff. PHMR also values and recognises work-life balance, providing flexibility and individual support to all our team members. We love being part of PHMR and perceive our culture to be vital to our success.

**Purpose of the role:** to support a range of health economics projects

This position will suit a talented and ambitious individual who wants to further their health economics experience in a dynamic and collegiate environment. The main focus of the role is on patient-reported outcome measurement and preference elicitation research. The successful candidate will also have the opportunity to get experience of a range of other health economics projects, including economic modelling, data analysis and market access projects.

### Requirements / performance dimensions:

#### **Functional technical expertise**

- Higher degree (PhD or MSc) in health economics or related discipline
- Good knowledge of health economic methodologies (e.g. patient-reported outcomes, development of (online) surveys, utility measurement, economic modelling, costing studies)
- An understanding of HTA methodologies and processes
- An understanding of different global HTA environments
- Project management skills
- Ability to clearly communicate technical issues
- Excellent quantitative skills, including econometrics
- Good knowledge of statistical software packages (e.g. STATA, R)
- Fluency in English
- Excellent MS Word, Outlook, PowerPoint and Excel skills

#### **Alignment to PHMR values**

- Integrity:** *We do the right thing*  
**Quality focus:** *We continually pursue excellence*  
**Ambitious:** *We are tenacious and sustainable*  
**Collegiate:** *We support and learn from each other*  
**Fun:** *We enjoy our work*

**Requirements / performance dimensions (continued):**

**Strategic input**

**Client focus**

**Communication skills**

**Non-project contribution**

**Great to work with**

**Autonomy**

**Line management (not applicable)**

**PHMR offer:**

- Flexibility and individual support for more balanced and enjoyable life
- Fantastic opportunities for professional development, working along industry experts

To apply for this position please submit your CV **and covering letter** explaining why you think you would be suited to the role to [info@phmr.com](mailto:info@phmr.com) before **14 January 2022**.

Candidates wishing to discuss the position, please get in touch for an informal chat with Dr Louise Longworth (Chief Scientific Officer), Dr Frauke Becker (Principal, Health Economics) or Dr Yemi Oluboyede (Director, HEOR). No agencies please.

All candidates are eligible to apply for our roles and will be considered on suitability and merit throughout the recruitment process. However, at the time of starting their employment the successful candidate must have permission to work in the United Kingdom.
