
Health Economics and Outcomes Researcher

Location: Primrose Hill, London, UK

Type: Permanent, office-based

Salary: On application, competitive and commensurate with experience

About PHMR

Established in 2007, we are a rapidly growing and energetic consultancy – a diverse group of professional scientists, health economists and industry specialists with a proven track record in providing global market access solutions to some of the biggest healthcare industries so that patients get access to medicines. Patients get access to medicines as a result of our work. Our science is internationally renowned, and we are proud of our work.

- We apply robust scientific approaches and methodologies. Quality science comes first.
- We combine the expertise of our team together with a worldwide professional network.
- We continuously learn and improve.
- 90% of our projects are repeat or referral from our existing customers.
- The majority of our team are educated to PhD level.
- We embrace diversity in all its forms.

Purpose of the role: to support a range of health economics and outcomes research projects

Requirements / performance dimensions:

Functional technical expertise

- Higher degree (PhD or MSc) in health economics or related discipline, or psychometrics
- Good knowledge of health economics and/or methodologies for the analysis of patient-reported outcomes (e.g. utility measurement, analysis and development of patient reported outcome measures, costing studies)
- An understanding of HTA methods and processes
- An understanding of the global payer environment including coverage, reimbursement and pricing
- Project management skills
- Proposal writing skills
- Ability to clearly communicate technical issues
- Excellent quantitative skills, including econometrics or psychometrics
- Good knowledge of statistical software packages (e.g. STATA, R)
- Fluency in English
- Excellent MS Word, Outlook, PowerPoint and Excel skills
