## Medical Writer / Literature Review Scientist

**Location:** Newcastle upon Tyne (city centre), UK

**Type:** Permanent

### About PHMR

Established in 2007, we are a growing and energetic consultancy – a group of professional scientists, health economists and industry specialists with a proven track record in providing global market access solutions to some of the biggest healthcare industries so that patients get access to medicines.

We pride ourselves on the way we work.

- We apply robust scientific approaches and methodologies
- We leverage the combined expertise of our team and a worldwide professional network
- We strive for continuous learning and improvement
- We share an enthusiasm for teamwork, for delivering the best we can to our clients and for positively impacting healthcare around the world
- 90% of our business is repeat or referral

Due to sustained success, we are looking to expand our evidence generation team to support the growth of our consultancy.

### About the role

This role will be focused on the evaluation of peer-reviewed literature and health technology assessments in the field of health economics covering disease burden, clinical trials, health-related quality of life and cost-effectiveness evaluations. The successful candidate will work with other team members on a diverse range of projects across numerous therapeutic areas, including infectious, cardiovascular and genitourinary diseases, oncology, and neurological disorders. This position will require the dissemination of the generated evidence to clients in the pharmaceutical sector via teleconference, PowerPoint slide deck, Word reports and the submission of manuscripts for peer-review.

### Key responsibilities

- Undertaking of pragmatic and systematic literature reviews covering clinical efficacy, health related quality of life, health economics and epidemiology
- Undertaking of medical writing and value communications work to support client market access
- Delivering original, accurate, high-quality content within the project scope, timeline, and budget
- Researching and writing fully-referenced scientific documents to a high standard based on clinical, scientific, and pharmacoeconomic literature, across a wide variety of therapeutic areas
- Participating in project status meetings, client teleconferences, and face-to-face meetings
- Supporting content development for other project work and business development materials

### Essential requirements

- PhD in life sciences or MSc in health economics
- Excellent attention to detail, including style, grammar, scientific accuracy, format and design
- Willingness to develop into a client facing / business development role
- Ability to deliver projects to timescales and budgets
- Willingness to live by PHMR values:

**Integrity:** *we do the right thing*

**Quality focus:** *we continually pursue excellence*

**Ambitious:** *we are tenacious and sustainable*

**Collegiate:** *we support and learn from each other*

**Fun:** *we enjoy our work*

---

## **Desirable skills**

- Experience of systematic literature review methodology
- Understanding of the fundamental concepts of health economics
- Understanding processes of pharmaceutical market access
- Previous experience of a consultancy environment

To apply for this position please submit your CV and covering letter explaining why you think you would be suited to the role and reasons for wishing to join our office in Newcastle to [info@phmr.com](mailto:info@phmr.com).

All candidates are eligible to apply for our roles and will be considered on suitability and merit throughout the recruitment process. However, at the time of starting their employment the successful candidate must have permission to work in the UK.
