

Senior Health Economist (HTA and Market Access)

Location: Primrose Hill, London, UK

Type: Permanent, office-based

Salary: On application, and commensurate with experience

About PHMR

Established in 2007, we are a rapidly growing and energetic consultancy – a diverse group of professional scientists, health economists and industry specialists with a proven track record in providing global market access solutions to some of the biggest healthcare industries so that patients get access to medicines. Patients get access to medicines as a result of our work. Our science is internationally renowned, and we are proud of our work.

- We apply robust scientific approaches and methodologies. Quality science comes first.
- We combine the expertise of our team together with a worldwide professional network.
- We continuously learn and improve.
- 90% of our projects are repeat or referral from our existing customers.
- The majority of our team are educated to PhD level.
- We embrace diversity in all its forms.

We also love being part of an engaging, supportive team that combines having fun with striving for high quality science. Our leadership team is always approachable, and we find it easy to work with each other. The variety of our work is both challenging and exciting and helps us achieve our research and career ambitions. PHMR provides flexibility and individual support in order to help make our lives more balanced and enjoyable. We love being part of PHMR.

Duties and responsibilities of the role:

The successful candidate will support a diverse range of projects to support market access and health technology assessment (HTA) strategies.

The key responsibilities of the role are to project manage a range of health economics studies including development of HTA and evidence generation strategies to support market access, submissions to HTA agencies, primary research with key opinion leaders and conducting analyses of HTA policy. The successful candidate will be a key point of contact for clients, successfully project managing and delivering projects to expected quality, timelines and budget.

Additional responsibilities of the role include the following:

- Internal and external day-to-day management of projects;
- Study design development and implementation across a variety of therapeutic areas;
- Development and delivery of training on HTA and market access
- Drafting reports, presentations and contributing to HTA submissions;
- Drafting abstracts and manuscripts as lead or co-author;
- Mentoring and training junior staff;
- Development of proposals;
- Managing project budgets.

Requirements / performance dimensions:

Functional technical expertise

- Higher degree (PhD or MSc) in health economics, health technology assessment (HTA) or market access
- A minimum three years of experience of health outcomes research (for Senior position)
- Comprehensive knowledge of HTA methodology and processes
- A good understanding of the global payer environment, including coverage and reimbursement and pricing
- Excellent project management skills
- Good business sense and strong analytical skills
- Excellent written and verbal communication skills
- Ability to think critically to challenge input and offer creative solutions
- Demonstrated ability to foster collaboration among multidisciplinary teams by applying communication and interpersonal skills
- A can-do approach to all tasks and commitment to delivering timely high-quality results
- Fluency in written and verbal English
- Excellent MS Word, Outlook, PowerPoint and Excel skills

Alignment to PHMR values
